*Celebrates*  
**EARTH DAY 2024!**

*The KBLA Talk 1580 Climate Justice Campaign is now in full effect!*

Recently, KBLA Talk 1580 released groundbreaking results from a survey of 500 Black likely voters about environmental issues and the impacts of pollution and climate change on communities of color.

The poll, conducted by public opinion research firm EVITARUS, revealed that more than 72% (7 in 10) of respondents believe that there is a direct connection between environmental justice, social justice, and civil rights. Equally as important, respondents overwhelmingly believe that pollution, climate change and other forms of environmental harm impact Black, Latino, and low-income communities more than White, Asian, wealthy, and coastal communities.

**KBLA Talk 1580 is excited to announce our partnership with the City of Compton to celebrate Earth Day 2024!**

*Join us as we broadcast LIVE! from Compton discussing the myriad ways we can all pitch in to improve our communities and help save our planet!*

*Spread the word and let's be the change for a better tomorrow!*

*"Twenty-five years ago, people could be excused for not knowing much, or doing much, about climate change. Today we have no excuse."*
